Key Use Cases

- **Reduce** risk data gathering & analysis **time** by expensive & **scarce SME resource** in your team
- **Resource planning** – **allocate limited resources** to the most appropriate risks & mitigations
- Provide a **reference point for risk owners** to ensure appropriate controls and KRIs are considered
- **Horizon scanning** – aware of emerging operational risks
- **Performing informed & realistic risk assessments**
- **Tracking emerging best practices**
- **Monitoring and analysing external loss events**
- **Developing risk scenarios**
- **Creating a risk-aware culture**

Customer Testimonials

Iosifina Degaita, Head of Group Operational Risk (National Bank of Greece)

- ✓ RiskSpotlight is a valuable tool to foster a risk-aware culture within our organization. Articles and medium-scale studies have proven to be of a great interest to our OpRisk correspondents. The Portal is presented in a user friendly manner and all information can be viewed through a number of dimensions (risk category, location/region, emerging topics/loss events, etc) which makes it truly easy to be used regularly.

Tim Ashton, Head of Enterprise & Operational Risk (Metro Bank,UK)

- ✓ Understanding and responding to the risk landscape beyond our own organisation is a key pillar of our risk management framework. RiskSpotlight provides us with a central repository of up-to-date information on external operational risk events, emerging risk trends as well as directly actionable insight such as scenarios that we make use of as part of resilience and capital planning. The portal is used by risk colleagues across all lines of defence and is empowering them to support our business teams in safely achieving their strategic objectives.

Keith Bason, Head of ERM and Operational Risk (The London Metal Exchange)

- ✓ The RiskSpotlight Portal allows us to benchmark our internal operational risk models against real-world events, incidents, and scenarios, ensuring our risk-based capital calculations are more comprehensive. We analyse the external information published by RiskSpotlight to identify emerging trends and risks that may not be apparent from internal data alone, enhancing our preparedness. This external perspective enables us to refine our regulatory capital strategies, ensuring they are aligned with the broader industry challenges and developments.

Antoine Aquilina, Head of Operational Risk and ISO (Bank of Valletta plc)

- ✓ In a very busy working schedule, RiskSpotlight Portal is a good tool to stop for a few minutes and navigate through various risk topics and keep abreast. The 'News Articles' tab is an excellent tool as it offers the opportunity to read articles on a vast range of topics populated in the portal by various sources. By navigating through events that are reported by various institutions, the portal provides an opportunity for early deduction and assessments of potential incidents that can happen in our organization.
